CONTENTS

Molecular Biology of 5-HT Receptor Subtypes
Stephen J. Peroutka 1

Differential Localization and Regulation of Central 5-HT_{1A} and 5-HT_3 Receptors
E. Kidd, A.M. Laporte, X. Langlois, M.C. Lombard, H. Gozlan and M. Hamon 13

Agonists and Antagonists at 5-HT Receptor Subtypes
Daniel Hoyer 29

The Autoregulation of 5-HT Release from Nerve Terminals *in vitro*
Lynn O. Wilkinson and Derek N. Middlemiss 49

Autoradiographic Localization of 5-HT Receptor Subtypes
J.M. Palacios, G. Mengod, D. Hoyer, C. Waeber, M. Pompeiano, S. Niclou and A. Bruinvels 61

Control of Ion Conductances by 5-HT Receptors
R. Alan North 73

Functional Roles of 5-HT_3-like Receptors in the Medial Prefrontal Cortex
Rex Y. Wang, Charles R. Ashby, Jr. and Jian Yu Zhang 81

Morphological Aspects of Serotonergic Innervation
Laura A. Mamounas, Mary Ann Wilson, Karen J. Axt and Mark E. Molliver 97

Autoreceptor Mediated Changes in 5-HT Release During Behaviour
Ian K. Wright, A.J. Lawrence, M.K. Mundey and C.A. Marsden 119

A Modulatory Function of 5-Hydroxytryptamine in the Central Nervous System
A.R.Sizer, S.K.Long and M.H.T.Roberts 135

Influence of 5-HT on Cognitive Performance
B. Costall, A.M. Domeney, M.E. Kelly and R.J. Naylor 147

Central 5-HT and Reward Processes
David B. Gilbert and Steven J. Cooper 165

5-HT Receptor Subtypes and Feeding Behaviour
Colin T. Dourish 179

Functional Differences between ascending 5-HT Systems
Stephan Hjorth 203

The Periaqueductal Gray, 5-HT and Anxiety
Frederico G. Graeff 219

Serotonin and Tourette's Syndrome: Movements such as Head-shakes and Wet-dog Shakes may Model Human Tics
Sheila L. Handley and Serdar M. Dursun 235

Clinical Applications of 5-HT Uptake Inhibitors
Ray W. Fuller 255

Neuropharmacological Investigations of Brain Serotonin Subsystem Functions in Obsessive-Compulsive Disorder
Dennis L. Murphy, Teresa A. Pigott, Tana A. Grady, Andreas Broocks and Margaret Altemus 271

Neuroendocrine Measures of 5-HT Receptor Subtype Function in Depression
P.J. Cowen 287

In vivo Neurochemical Studies of 5-HT_{1A} Autoreceptor Function
Trevor Sharp and Stephan Hjorth 297

The Diagnostic Place of OCD and Panic Disorders as Serotonergic Illnesses
Stuart A. Montgomery 325

Organization of 5-HT Neurones regulating Central Pain
Brian P. Richardson 335

Role of 5-HT in Relationships between Descending Systems controlling Pain and Cardiovascular Function
T.A. Lovick 349

Brainstem Serotonin Receptor Subtypes and Cardiovascular Control
R. A. Gillis, A. K. Mandal, Y.M. Hernandez, W.P. Norman, K.L. Dretchen, R.A. Travagli and S. Vicini 361

Serotonin, Stimulation-produced Analgesia and Spinal Mechanisms of Antinociception
Jean-Louis Olivéras and Jean-Marie Besson 383

Subject Index 407
